

Industrial Air Tools and Pneumatic Tools

For 50 years Fiam has been manufacturing industrial tools to the highest standard possible. From January 1995 Fiam obtained the ISO 9001 certification, the first in its field in Italy, and one of the first in its field in the world.

BalTec (UK) Ltd are now partners in the UK for their superb range of industrial pneumatic tools and are pleased to be able to supply and integrate these products to our clients.

Please contact us for further information on our range of pneumatic tools.
